

Dear John :

Enclosed a letter & prospectus  
from Miss Lawrence. As you say yourself  
that you do not suppose you will see Camilla  
more than 6 times in a year, <sup>for this is not to be depended upon</sup> the distance  
from Lander is not very material.

At least I shall go down in a few  
days & see, & you might do the same.

The other head-mistress Gibber is Miss  
Grant of my public school - She left  
after my first year at St. Andrews  
& it was later that the place became  
so harsh & doctrinaire - She is a celebrated  
woman & a perfect type of old Scotch  
gentle woman.

Do not think that I have

any prejudice against your school. But  
I know the climate is stoppish & damp,  
— but good for ear & throat weaknesses —  
Dart air is excellent & I know how  
Grace Lawrence can teach —

That's all —

Yours —  
Jay.

plan from Huxley —  
the idea is splendid as
