Seaven

My dear Aunt Gil

How very odd about the appendicitis.  
When I was there, we had <sup>as</sup> just the same - Only all over  
Parkstone. People sat about, expecting to get it, just as  
you describe; & we did. A girl called Evelyn Parfex,  
ask Aunt Ada about her. First all her family got it;  
then she sat about & talked of it; till she did.

I shall be so glad to see you. Brocas & Harris  
should be here & other friends. Do kindly love to see  
you.

Also I have several stamps taken for you  
ear alone. Seaven gets number & number.  
Father Walker hopes to see you very soon. Indeed,  
all Seaven sends its love.
